

Capt. Chris Yard

I am licensed to run my charter business out of a fully insured and USCG-inspected, 26-foot Parker 2520xl. This 2005 model has a full pilot house to provide cover and protect my passengers from the hot midday sun as well as inclement weather. This vessel, "Irish Knots", can accommodate up to six paying customers. It is sponsored and fully equipped with the best fishing systems in the business by Traxstech Corporation. It is a well-designed, well-laid-out fishing machine outfitted with some of the best electronics, fishing products, and safety gear made for the Great Lakes Fishery.

Aboard the Irish Knots, it is my goal to give you a safe, enjoyable fish-catching experience, so bring your family (we are child friendly), friends, and business partners, and come enjoy some world-class fishing and some of the most impressive sights one can see from the water.

Testimonials

Not only does Chris know how to catch fish, but a day on Irish Knots is entertaining, fun, and an all around great time. We recently did our first trip with him. On top of putting some big fish on the boat, we had a lot of laughs, saw an amazing sunset, and got pictures and memories that will last a lifetime.

Can't wait to go again!

Chris from N.Y.

World class operation from top to bottom. Have had the pleasure of fishing with Capt. Yard and Irish Knots Fishing several times over the last few years and he never disappoints. You will be hard pressed to find a more honest, hard working guide on Lake Ontario. The boat is clean, spacious and outfitted with the latest and best equipment, making for a tremendously comfortable experience.

Ray from N.Y.

Have gone fishing with Irish Knots for about 4 years for both salmon and browns. Professionalism fishing ability is like no other! We have always caught fish and had an excellent time on the boat. Irish Knots is well equipped and very clean! Would not go with anyone else!

Jess from P.A.

Thank you for two great days of fishing with you on the "Irish Knots." Your ability to find the fish and stay on them was impressive. Seven brown trout on the first trip and two steelhead and three kings on the second trip. Your equipment worked flawlessly and I was impressed with the cleanliness of your boat. Everything was neat and orderly. Looking forward to fishing with you next year.

Brian from P.A.
