

# Capt. Chris Yard

Captain Chris is licensed to run "Lil Knots" out of a fully insured, Sport 175 Alumacraft. This 2007 Dominator model is powered by a 115hp Evinrude Outboard and trolls the shallows with a quiet and powerful MinnKota electric motor. This vessel, "Lil Knots", can accommodate up to three paying customers. It is sponsored and fully equipped with the best fishing systems in the business by Traxstech Corporation. It is a well-designed, well-laid-out fishing machine outfitted with some of the best electronics, fishing products, and safety gear made for the Fishery.

Aboard the Lil Knots, it is my goal to give you a safe, enjoyable fish-catching experience. Bring your family (we are child friendly), friends, and business partners, and come enjoy some of the most impressive sights one can see from the water.

Proudly Fishing with:
